

EL3 LED Controller

The Gavita™ EL3 is the next generation in our EL controller series, designed to maximize the performance of your compatible fixtures. An 8-inch touchscreen interface provides a clear and colorful display. With this unit, you can control up to 512 fixtures across two zones, making it possible to customize settings for different rooms or growth phases. The EL3 enables you to set sunrise/sunset dimming, high-temperature dimming, and high-temperature shut-off for all connected fixtures. Best of all, the EL3 lets you build and program entire schedules for your growing cycles. When using a compatible Gavita™ or Sun System LED fixture, you will be able to view at the individual fixture level, how each one is performing.
