

COLOR VARIATION INFO 2022

0-50-30

MONSTER BLOOM

- ✓ Monster Bloom's new dye does not stain hands, and it allows the same Monster Bloom performance that craft growers have come to expect.
- ✓ The product with new dye is more pinkish/reddish when mixed with water. The color difference is more prominent in concentrated solutions.
- ✓ There could be a slight variation of color between finished product batches due to the variation in crystalline structure of the ingredients.
