

BOTANICARE® GUTTER TRAY SYSTEM

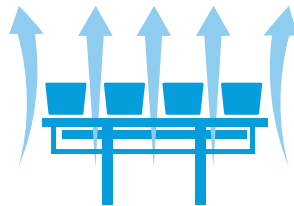

Botanicare® Gutter Trays are designed to increase air circulation potential and include integrated irrigation accessories for more organized and efficient fertigation. The rock-solid Slide Bench is now available with options to suit any growing style. Retrofit your current Slide Bench setup or upgrade to Gutter Trays with your new bench purchase.

Flexible design to fit your space

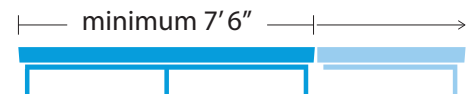

SIMPLE RETROFIT

Convert your Botanicare® Slide Bench by removing Botanicare® Original Grow (OG) Trays easily replacing with new Gutter Trays and irrigation accessories.

IMPROVED AIRFLOW

Thoughtfully designed gaps between trays create 23% additional space for airflow versus our Botanicare® OG trays. More space is conducive to improved airflow, helping to mitigate damaging microclimates and associated challenges.

LENGTH & SIZE

Designed for modularity just like the original trays. Gutter Tray end kits come in 2', 3', 4', and 5' increments to fit existing Botanicare Slide Bench lengths (up to 100.5 ft) and come in 4 ft and 5 ft width options.

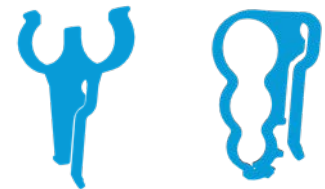

DRAINAGE

Built in slope and height adjustments up to 5" for 20" and 30" options, 2.5" for 12" options.

DRAIN MANIFOLD

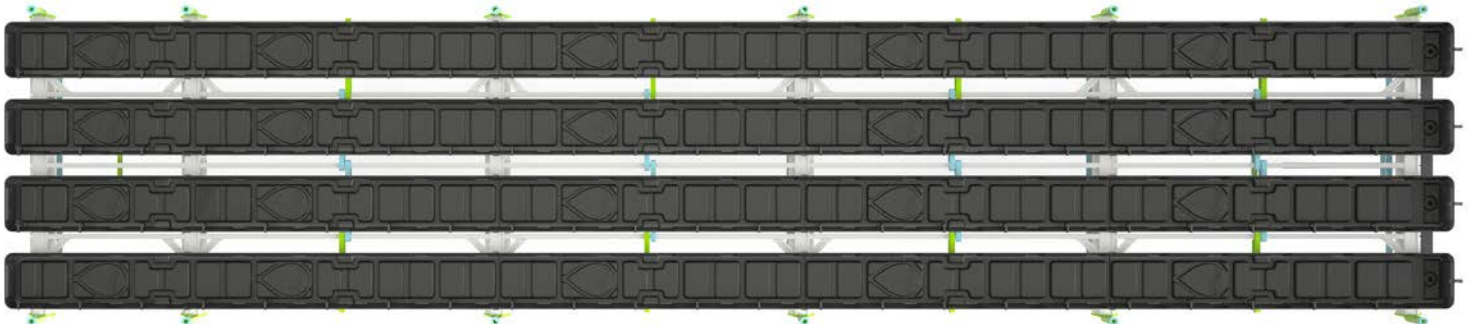

Drain Manifold is included for a more organized and efficient drainage setup.

IRRIGATION LINE & HEADER LOCKS

Irrigation Line Locks fit standard Netafim™ tubing sizes (1/2", 3/4", and 1"). Header Locks fit 3/4" and 1" PVC.

BOTANICARE® GUTTER TRAY SYSTEM (CONTINUED)

5 ft wide system

Features & Benefits: Best-in-class Botanicare® Slide Bench... Enhanced.

- Compatible with all Botanicare® Slide Bench systems and **easy** to install. As simple as removing your old Botanicare OG trays, sliding on the supports, and installing the new Gutter Trays without additional fasteners.
- Integrated irrigation solutions
 - Centralized Drain Manifold reduces the number of outlet drain lines with a sleek design.
 - Irrigation Line Locks elevate lines and keep the system organized, allowing for efficient sanitation.
 - Header Locks secure PVC supply lines up and out of the tray.
 - Irrigation Line Locks and Header Locks are also compatible with Original Grow trays, Low Tide, and Rack Trays (excluding MRT).*
- Gutter Trays are made from the same ABS plastic as the Original Grow trays, which are tougher than High Impact Polystyrene (HIPS).
- Thoughtfully designed gaps between trays create 23% additional space for airflow versus our standard trays.
- 100% compatible with all CocoPro™ media.

Pot & Growing Media Compatibility

*Refer to pot and/or growing media final dimensions to confirm compatibility with Gutter Tray.
