

BOTANICARE OUTSIDE DIMENSION (OD) TRAYS

3X3 OD BLACK

For compact spots that require precisely-measured components, choose Botanicare® OD Trays in black. Outside Dimension trays have the precise footprint that their name suggests and were designed to fit in small rooms or grow tents. OD trays, available only in black ABS plastic, are formed with an easy-to-clean diagonal drainage grid to direct water towards drainage fittings, a taller sidewall height and a rolled tray edge. With superior rigidity over other OD trays on the market, OD trays are an economical purchase for the space-minded consumer. All Botanicare trays are made in the USA using renewable solar energy, contain at least 70% recycled materials, and are BPA-free. Lids are not available.
