What is an Integrated Panel?

In order to reduce installation costs and facilitate easier installations, Link4 has introduced a line of Integrated Contactor Panels for our iPonic Series Environmental Controllers

With Integrated Contactor Relay Panels you will receive a UL & cUL approved contactor panel with an iPonic Series Environmental Controller, conveniently pre-mounted on the door for ease of installation. There's no need to mount two separate boxes with conduits in-between.

5 Reasons to Choose Integrated Panels

1. Pre-mounted with <u>Link4's Environmental Controller</u>
2. Pre-wired to eliminate wiring errors in the field
3. Pre-tested for quality and reliability
4. All-in-one solution is ready to work out of the box
5. Reduced Labor Costs and Reduced Installation Time will Save You Money

Made in the USA

iPonic Commercial

Key Benefits

Easy Transition from Outdated Thermostats & Early Controllers

- Ideal for small or medium retrofits/new installations
- Manage Multiple Zones at one time through the iPonic Could

Get Advanced Control at an Affordable Price

- No other control system offers these advanced features at similar affordable price.

Easy to Operate and Modify Controls

- Simple touch interface that easily makes control changes without hard wiring.

Get Instant Access to Controls — Remotely

- Download data with a just a USB stick, or easily access controls and make changes from any computer, cell phone or wireless device anywhere internet is available

Day & Night System Control

- All day and night equipment operating set-points are monitored — even if workers use manual override — so you always know when equipment is running.
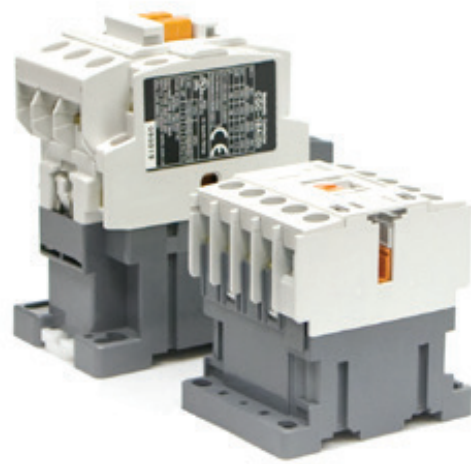

Panel

Key Benefits

UL Approved Panel

- The fully UL approved panel satisfies most local electrical inspection requirements for high voltage panels.

Pre-mounted

- To ensure that our panel retains the coveted UL approval and to keep installation costs to a minimum, the Link4 iPonic Commercial comes pre-mounted with an iPonic Series Environmental Controller.

Pre-wired

- We make the wiring connections for you in the factory so the iPonic Commercial contactor relay panel works right out of the box.

Pre-tested

- Each iPonic Commercial is thoroughly tested in-house to ensure quality and reliability.
