WHAT IS BIO·HEAVEN™?

Your plants will look forward to complete, all-round nirvana with Bio•Heaven™. It contains carefully selected biological stimulants, such as amino acids – the basic building blocks for proteins and enzymes that are essential for the plant's structure and metabolism.
It improves the effects and translocation of nutrients in all foliar sprays and fertiliser blends. It also gets rid of toxins through boosting the plant's anti-oxidant system and repairs chlorophyll production.

The Bio•Heaven™ benefits
Bio•Heaven™ stimulates enzymatic activity and fast nutrient absorption, while increasing the chelate of essential macro and micronutrients. Plants are also better able to retain moisture and experience less humidity stress as a result. Bio•Heaven™ also provides an outstanding source of carbonic acid for microorganisms in the soil. Ultimately, the crop performs better and you can look forward to a higher quality yield.
