*Rejuvenates planter beds *Encourages prolific and long lasting blooms

INSTRUCTIONS FOR USE

ESTABLISHED ROSES AND FLOWERS:
Apply in early spring when new growth starts. Mix 1 cup into the soil around the base of each plant. Scratch it in and water. Repeat after 4-6 weeks

ESTABLISHED ANNUAL AND PERENNIAL FLOWER BEDS:
Apply 2 cups per 5'x5' area of planting bed, around the base of the plant. In spring and early summer. Scratch in and water

AMENDING RAISED BEDS AND CONTAINERS:
Apply 3 cups per 5'x5' surface area of soil. For new planting, mix 1/2 cup per cubic foot of potting soil prior to filling the container
CONTAINER PLANTING: Apply 2 tsp per gallon of container size
