

EARTHSHINE BIOCHAR

INCREASES MICROBIAL ACTIVITY · SUPPORTS SOIL HEALTH

FEATURES AND BENEFITS

*Natural and Organic *Rejuvenates old soil *Improves soil quality *Compost accelerator
*Helps fix nitrogen in the soil *Dissolves dead leaves & roots

INSTRUCTIONS FOR USE

<u>TO REUSE OLD SOIL</u>:
Mix liberally into the soil at rate 16oz per cu.ft. of media.

<u>TRANSPLANT</u>:
Mix 1 tbsp into transplant hole and gently mix in or lightly dust the root ball. Will NOT burn roots - use with mycorrhizae.

<u>BOOST NEW SOIL</u>:
Apply 8oz per 4 cu.ft of new soil.

<u>MAKE COMPOST TEAS</u>: Add 1 oz per 5 gallons of purified water and aerate for 6 hours. Apply to plants at time of watering.

<u>SOIL RESCUE REMEDY</u>:
If garden is established, top dress once every 4 weeks with 4oz around the base of the plant and water thoroughly.

<u>BULK SOIL MIXING</u>: Add 30Lb per 4 cubic yards of soil and till thoroughly.
