ferti•lome®

Premium Bedding Plant Food

Excellent Plant Food For Hibiscus, Bougainvillea, Plumeria And All Flowering Tropicals

We understand the work involved in adding beauty to your landscape. With this understanding, we have designed **ferti•lome® Premium Bedding Plant Food** for use to assist you in growing nutrient healthy bedding plants, perennials, Hibiscus, bulbs, and other plants around your home. Our goal is to supply quality products for the homeowner that will assist in enhancing the beauty of your landscape. Visit with your local independent nursery or garden center for other quality ferti•lome® products to be used around your home and garden.

GROWING GUIDE	
Individual Pansies, Perennials, Blooming or Bedding Plants	Mix 3 tablespoons of **ferti•lome® Premium Bedding Plant Food** in a 10x10 inch area of soil to a depth of 4 to 6 inches. Transplant plants and water thoroughly as needed. For individual plants planted in holes, mix ¼ to ½ teaspoon **ferti•lome® Premium Bedding Plant Food** with soil in the bottom of planting hole. Transplant your Pansies, bulbs, perennials or bedding plants and water thoroughly as needed. Feed again at 30 day intervals throughout the growing season.
Group Plantings in Beds of Pansies, Perennials, Blooming or Bedding Plants, and Bulbs	Broadcast 2 cups (approximately 1 lb.) of **ferti•lome® Premium Bedding Plant Food** per 25 square feet of bed area. Mix into soil to a depth of 4-6 inches. Plant transplants and water thoroughly as needed. Use care when mixing into soil around emerged plants and bulbs. Feed again at 30 day intervals throughout the growing season.
Larger Individual Plants: Crape Myrtle, Hibiscus, Bougainvillea, and Blooming Shrubs	Prepare planting hole and mix ⅓ cup of **ferti•lome® Premium Bedding Plant Food** into soil at bottom of planting hole. Mix an additional ⅓ cup into soil removed from planting hole used for backfill. Transplant plant and water thoroughly as needed. When established, feed regularly with the quality **ferti•lome® Premium Bedding Plant Food** designed for your specific plant. Feed again at 30 day intervals throughout the growing season.
